“We evaluate the trade fair very positively. We appreciate the good location, large space, and substantive discussions with participants. We are considering taking part in the next edition of the event.”

Event description

BioPower Expo is an event dedicated to professionals from the bioenergy biotechnology sector, as well as manufacturers and distributors of solutions related to renewable energy sources, biomass, biogas, and low-emission technologies. The trade fair showcases a wide range of modern installations for bioenergy production, systems for processing organic waste, biogas technologies, and solutions supporting the efficient use of biomass in energy generation.

The event also focuses on innovations in industrial decarbonization, energy storage, process automation, and installation monitoring, serving as a comprehensive platform for knowledge exchange for investors, plant operators, local governments, and companies seeking sustainable energy solutions.

EVENT STATISTICS

12 000 m2
exhibition space

2323
visitors

69

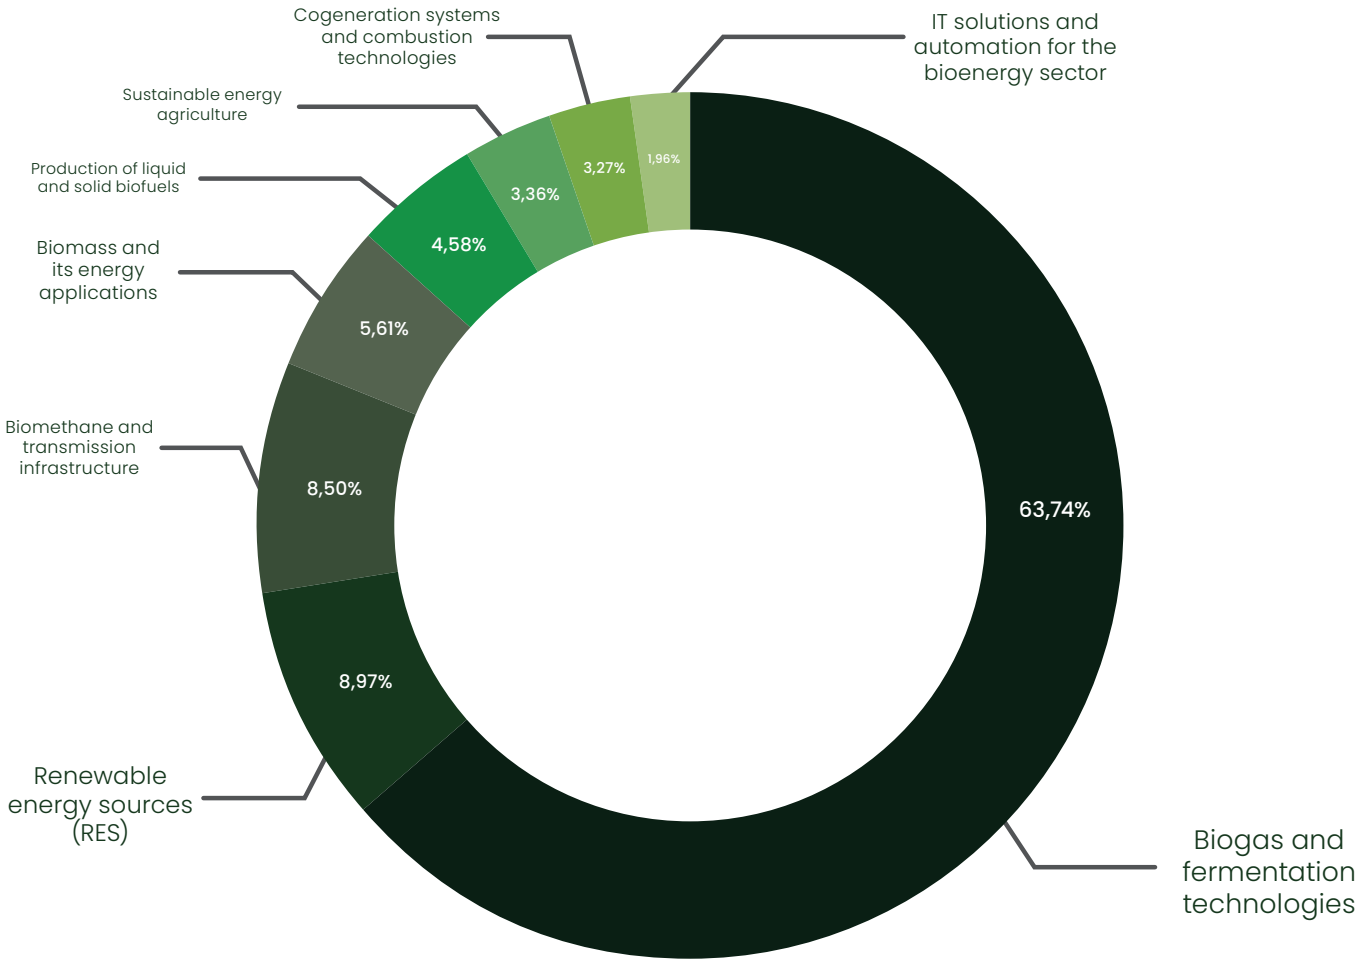
WHO VISITS OUR SITE:

The BioPower Expo trade fair attracts a wide range of professionals from the renewable energy, environmental biotechnology, and waste management sectors who are seeking the latest technologies, innovative installations, and practical solutions related to bioenergy production.

The event provides a unique space for establishing business connections, exchanging experience, and observing real-life implementations of biogas, biomass, fermentation, and low-emission systems. Participants have the opportunity to explore modern equipment, services, and technologies that support energy transition and sustainable management of organic resources.

VISITORS' INDUSTRY INTERESTS:



VISITORS INCLUDED REPRESENTATIVES FROM THE FOLLOWING COMPANIES, AMONG OTHERS:

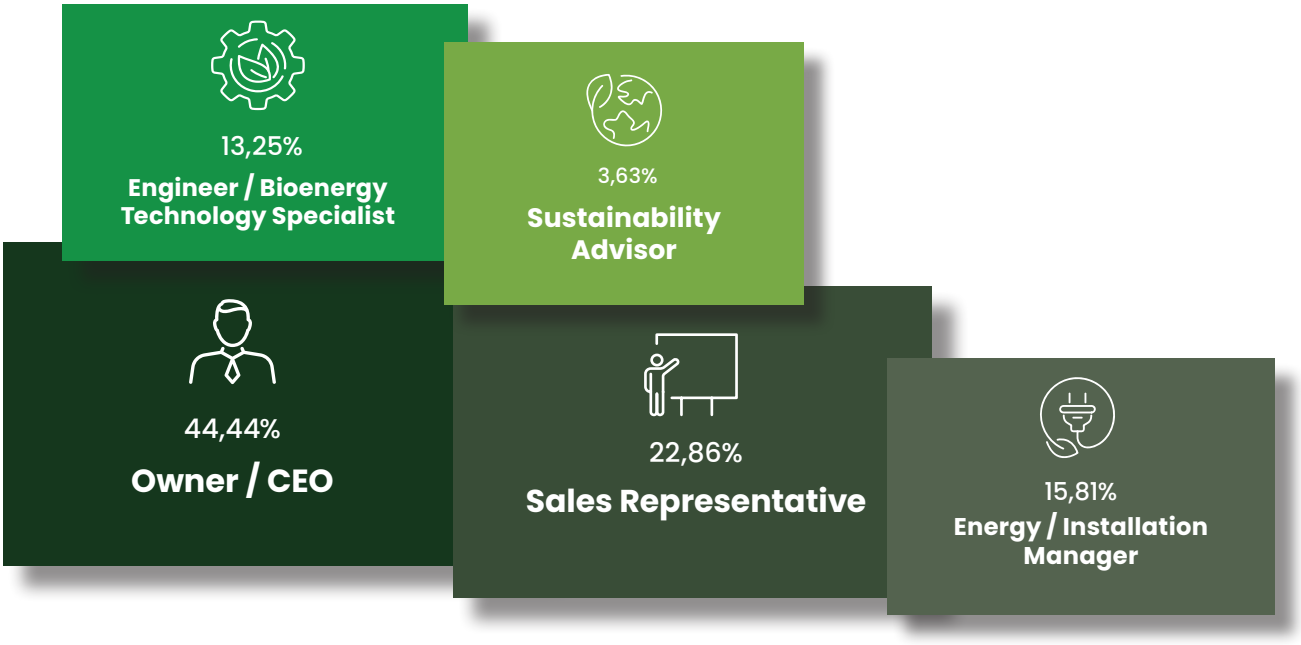
BNP PARIBAS, Adven, camfil, CRÉDIT AGRICOLE, TOREX, EKO-AGRO, Energy Solutions, omne, HAYS, ENERPAC, EMERSON, Industria Pactum, Galia GREEN POWER, Roxtec, OLEJNIK S.A., WALTER KOMPRESSORTECHNIK, ROLPOL, mercor, MOTUL, OEM AUTOMATIC, ORLEN, REHAU, REMONDIS, STRABAG, POLVALVE

COMPOSITION OF FAIR VISITORS:

Among our visitors were people from countries such as:

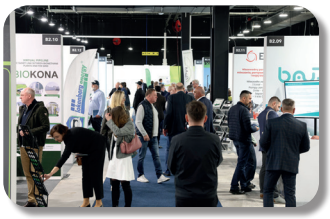
Germany, Czech Republic, Ukraine, Slovakia, Spain, Switzerland, the Netherlands, Greece, Estonia, France, Austria, Canada, Belgium.

INDUSTRY FOCUS



MAIN REASONS WHY OUR VISITORS ATTEND THE BIOPOWER EXPO:

Exploring the latest technologies and trends – the opportunity to learn about innovations in the fields of biogas, biomethane, biomass, biofuels, as well as modern installations and bioenergy production processes.



Establishing business contacts – meetings with technology manufacturers, plant operators, equipment suppliers, energy companies, and industry experts from both domestic and international markets.

Direct testing and technology demonstrations – a chance to see fermentation installations, biomass processing equipment, cogeneration systems, automation solutions, and biomethane infrastructure in practice.

Participation in conferences and training sessions – gaining practical knowledge from experts on energy transition, process optimization, emission reduction, environmental standards, and financing of bioenergy projects.

Inspiration and benchmarking – the opportunity to compare market offerings, find new partners, explore case studies, and implement best practices related to the production and use of renewable energy.

STRONG INDUSTRY REPRESENTATION LAST YEAR:

BIOGAS / BIOMETHANE PRODUCER:

EnviTec Biogas · BIOGAS SYSTEM S.A. · Ekoinstal Biogaz · BIOGAZ SERWIS

FARM / FARMER:

CEDRUS TECHNOLOGIE · wiefferink · Naturalna Energia.Plus · BIOVOIMA

RES INSTALLATION OPERATOR:

wolf · green-en · hye-lokenberg · AMMONGAS EUROPEAN ENERGY

TECHNOLOGY OR MACHINERY SUPPLIER:

Tech-GAS GRUPA · Maschinen Schmidberger · ControlTec · UMOE

ENERGY COMPANY / ENERGY DISTRIBUTOR:

EUROPEAN BIOCHAR · BIOCHAR · biowatt · PZE KRIS

PREVIOUS LIST OF EXHIBITORS

THIS IS WHAT THOSE WHO HAVE ALREADY BEEN WITH US SAY

"We evaluate the trade fair very positively – everything was organized efficiently and on time. We treat participation in the fair as an opportunity to establish contacts and hold discussions with potential RES clients."

"This is my first time attending a trade fair organized by PWE, and I must admit I am positively surprised. The venue stands out with its modern infrastructure, large halls, and spacious stands – compared to other centers in the country, it is truly of a very high standard. I was also surprised by the number of exhibitors in such a specialized industry."

"I am pleased that the concept of this trade fair has been so well received and that the event has attracted great interest. Such fairs are very much needed, as they bring the industry together and show who can collaborate in the development of biogas and biomethane in Poland."

"I rate the organization of the trade fair very highly. The conference attracted a large number of attendees, who later also visited the exhibition stands. Combining substantive content with exhibition space is a very good idea, especially for manufacturers of machinery and equipment who are unable to showcase their offerings in hotel settings. We are satisfied with our participation and are considering returning for the next edition."

MARKETING AND PR

We promote each event in a comprehensive and multi-channel manner—we run modern marketing campaigns in the digital space, including ads on Google, Facebook, and Instagram, and we actively manage our YouTube channel. We send out emails, newsletters, and text messages, prepare elegant paper invitations, and contact potential attendees directly via phone calls. We research which countries have the greatest demand for this type of event and direct our promotional efforts there to ensure our ads reach the right audience.

PARTNERS AND SPONSORS

However, marketing our events involves more than just advertising campaigns and sending out invitations—it also involves strategic partnerships with key industry players. We collaborate with industry associations, trade media, prestigious magazines, and authors of specialized blogs in Poland and abroad. This allows us to effectively attract professional visitors and ensure our exhibitors achieve maximum reach and tangible business results.

FAIR PARTNERS

POLSKA RADA PELLETU

The Polish Pellet Council is an industry organization that brings together producers, distributors, and companies associated with the wood pellet and solid biofuels market. Its goal is to promote high quality standards, support the development of renewable energy sources, and represent the sector's interests at both national and international levels. The Council actively participates in legislative processes, conducts educational and certification activities, and integrates the industry through conferences and expert initiatives. Through its activities, it contributes to the development of a stable and competitive pellet market in Poland.

Polska Izba Gospodarcza PIGEOR Energetyki Odnawialnej i Rozproszonej

PIGEOR is one of the most important industry organizations in Poland, representing companies operating in the renewable energy and distributed energy sectors. The Chamber actively supports the development of RES, participates in legislative consultations, and works to create stable conditions for investments in green energy. It brings together a community of experts, producers, investors, and technology providers, promoting innovative solutions in the fields of wind, solar, biogas, and biomethane energy. PIGEOR also serves as an educator and advocate for the sector, supporting the development of modern, low-emission energy in Poland.

KIB KRAJOWA IZBA BIOPALIW

The National Chamber of Biofuels is an industry organization that brings together entities operating in the liquid biofuels and biocomponents market. Its mission is to support the development of modern and sustainable renewable fuel technologies, as well as to represent the sector's interests in dialogue with public administration and European institutions.The Chamber conducts expert, educational, and advisory activities, engaging in legislative work related to biofuels and climate and energy policy. Through its efforts, the National Chamber of Biofuels contributes to the development of the low-emission fuels market, enhances energy security, and supports the energy transition in Poland.

MEDIA PARTNERS OF THE BIOPOWER EXPO 2025

CONFERENCES AND RELATED EVENTS:

WHO ORGANIZED IT?

WHAT TOPICS DID WE DISCUSS?

WHO WAS THE SPEAKER?

DAY 1 – TUESDAY, 30 SEPTEMBER 2025

The first day of BioPower Poland at Ptak Warsaw Expo began with the official opening of the trade fair attended by Stefan Krajewski, Minister of Agriculture and Rural Development. His presence highlighted the importance of the biogas, biomethane, and renewable energy sectors for the development of agriculture and energy security.

The event then continued with the Agricultural Biogas session, during which industry practitioners and representatives of trade organisations discussed their experience in operating biogas plants, the role of agricultural energy islands, and opportunities for decarbonising food production.

The next part of the programme focused on biomethane. Participants attended presentations on green gas and the GreenMeUp report, followed by the main biomethane debate featuring experts from the gas, energy, and biomethane sectors.

In the afternoon, an academic session was held covering topics including the circular economy, reducing emissions in agriculture, methane fermentation, and the impact of renewable energy sources on crop production. At the same time, workshops were organised on grants, B2B platforms, and energy cooperatives.

DAY 2 – WEDNESDAY, 1 OCTOBER 2025

The second day of the event focused on the importance of biogas and biomethane for the energy and gas sectors, investment financing, and workforce development for the industry. In the first part of the programme, experts discussed the role of biogas in ensuring energy security and its potential for supporting the development of the national energy system.

The programme then addressed loans, grants, and available financial support instruments for investors. Speakers included representatives of the Bank Ochrony Środowiska (Bank for Environmental Protection) and Business Consulting Group Capital Group.

The final session was devoted to vocational education and the need to train specialists for the bioenergy sector. Experts from PIMOT and ManpowerGroup identified the key competencies and development directions for the future workforce of the biogas and biomethane industry.

FAIR AWARDS

FAIR MEDAL WINNERS:

KEY PARTNER OF THE FAIR:

upebbi – Unia Producentów i Pracodawców Przemysłu Biogazowego i Biometanowego
BCG Grupa Kapitałowa „Business Consulting Group"
POLSKA RADA PELLETU
Krajowy Ośrodek Wsparcia Rolnictwa
BOŚ BANK

A KEY CONTRIBUTOR TO THE FAIR'S SUCCESS:

BIOGAS SYSTEM S.A.
suma
CRÉDIT AGRICOLE
ECO-PALNIK Skiepko
biowatt
HOWDEN
FLEXSOL ECO-STORAGE FOR LIFE
biomasa
Naturalna Energia.Plus
NOVAGRAR THE COW CARE COMPANY
Ekoinstal Biogaz

THE FOLLOWING RECIPIENTS RECEIVED AN ADDITIONAL AWARD FROM **THE NATIONAL FEDERATION OF SMALL AND MEDIUM-SIZED** ENTERPRISES:

POLSKA RADA PELLETU
upebbi – Unia Producentów i Pracodawców Przemysłu Biogazowego i Biometanowego
